

It's your body.
It's your baby.
It's your life.

It's your right to say, "NO!"

The purpose of The Ronald Andrew Holloway Foundation is to educate the public about the potential dangers of the medical practice of prescribing drugs for off-label use, and, in particular, to educate women about the potentially dangerous side effects of using the drug Cytotec (miso-prostal) for the purpose of cervical ripening and/or labor induction.

We want this-

Not this!
